INDICATIONS ARE ENGLAND AND GERMANY WILL CLASH

Will Commence Harvesting In Peavine Prairie District Within the Next Ten Days

Binder Will be Seen in Number of Fields
by Middle of Next Week—Crops
Promise Very Heavy Yield

HARVEST MUCH EARLIER THAN IN PREVIOUS YEARS

Harvesting of fall wheat and oats will be in full swing within the next ten days over the greater portion of the Peavine Prairie country, the farmers anticipating that in this district, where the rainfall has been a little less heavy and the sunshine more continuous than in the Edmonton district and country south to Red Deer, one of the earliest harvests of the west will be reaped.

George Hay, government landguide and homesteader in the Peavine country, stated to the Capital this morning that he had arranged to cut sixty-five acres of fall wheat early next week. Mr. Hay has just returned to the city after locating a party of six land-reckers, and declared this morning that he had made final preparations for the harvest, and that all the Peavine prairie farmers expected to have their binders at work in about ten days time. The grain has matured very rapidly during the past couple of weeks, and the harvest will be earlier even than the most optimistic of farmers had hoped. Mr. Hay owns half of section 1, township 58, range 8, west of fifth meridian, and the condition of his crops, right in the heart of one of the richest agricultural sections of Central Alberta, is typical of those of the whole district.

"Never have prospects been so bright," said he this morning. "The settlers who have been in the country for a year or more, and who took steps to crop a large proportion of their land this year, will make a substantial turnover, if the present bright outlook continues. Nothing has occurred to damage the crops, and it is impossible to imagine a more favorable year than this has been."

Miners Are Willing to Resume Negotiations

ACTING PREMIER MITCHELL OUTLINES WORK OF CONFERENCE HELD IN McLEOD RECENTLY—OPEN OR CLOSED SHOP NOT INVOLVED IN CONTROVERSY.

The course of the abortive conference of boards of trade in Macleod for discussion of the coal strike situation was briefly outlined this morning by Hon. C. B. Mitchell, acting premier, who has just returned from the south. Mr. Mitchell was in attendance at the session on Monday.

"Good order" was maintained throughout the afternoon, but, as evening session," said Mr. Mitchell, "the various questions arising out of the strike were carefully and thoroughly discussed, both sides apparently being anxious to assist the delegates in their work. Shortly before the meeting opened the operators drafted a statement which has been forwarded to the miners of labor, according to the record of the conciliation board as contained in the majority report and signed by Mr. Macleod. This statement was read at the meeting by President Stockell, the president of the operators association, and contained the ultimatum of the operators. Mr. Myers in behalf of the men declined on the other hand to accept the report, stating that in the opinion of the men the majority report

had in fact been made, but he expressed the willingness of the miners to enter into further negotiations on the basis of the minority report signed by Mr. Carter. A small committee was then selected from the meeting to interview the representatives of both sides in the dispute, and after consultation with them reported that neither would recede from their respective position.

"During the meeting it developed that no question of open or closed shop was involved in the dispute, and the various questions arising out of the strike were carefully and thoroughly discussed, both sides apparently being anxious to assist the delegates in their work. Shortly before the meeting opened the operators drafted a statement which has been forwarded to the miners of labor, according to the record of the conciliation board as contained in the majority report and signed by Mr. Macleod. This statement was read at the meeting by President Stockell, the president of the operators association, and contained the ultimatum of the operators. Mr. Myers in behalf of the men declined on the other hand to accept the report, stating that in the opinion of the men the majority report

DELEGATION OF OHIO EDITORS TO VISIT CITY

LEAVE CEDAR POINT, OHIO TODAY AND WILL MAKE A TOUR OF WESTERN CANADA BY SPECIAL TRAIN—200 IN THE PARTY.

Edmonton is to be visited on August 2nd by a party of between 150 and 175 newspaper and magazine editors, the majority of whom are from Ohio. About 25 of these number will come from other points, accompanied by their families they will start on the long tour of the various railway systems in the Canadian west on the next day. Preliminary arrangements are being made for their entertainment at the different Canadian points to be visited. By 7 o'clock of the immigration department at Edmonton this morning arrived in Edmonton this morning were the G. N. R. men. Mr. Downie is securing the co-operation of the boards of trade throughout the country in the entertainment of the party. On his way to Bedford, Lloydminster, Vegreville and other places and in every case the board of trade expressed a willingness to do everything in their power to show the visitors the resources of their dis-

HIGH GRADER NOW A JAIL BREAKER

WITH AID OF SMALL AXE PRISON-
ER ESCAPES FROM NORTH
DAY PRISON

(Western Associated Press)
North Bay, July 27.—A daring escape was made from North Bay jail in broad daylight by a high grader from Cobalt, who had only seven more days to serve of his sentence. At 2 o'clock he found himself alone in the yard with an axe in his hands with which he had been cutting wood and only a half board fence between him and liberty.

His name is L. Sengest, rounded up at Cobalt for stealing silver fish at Cobalt.

Will Be Unnecessary To Create Extra Peers

Premier Asquith Not Very Anxious to Swamp Upper House and Will Not Force Crisis—May Adjourn House Until the Fall

(Canadian Associated Press)
London, July 27.—It is becoming increasingly evident that the Lords will not be able to deliver the "zounds" or in other words to pull their pants to anything like the extent claimed and the government will not be forced to create a large number of peers, if any, in order to carry the veto bill. The effect of last night's rally at the dinner given in honor of the Earl of Salisbury, leader of the insurgent lords has been to send

Germans Are Ordered To Join the Reserves

Tarford Mines, Quebec, July 27.—German workmen employed in the mines here have received orders from the German Home Government to return to the fatherland and join the reserves. The order has caused considerable excitement here among the employees and it is expected that a good percentage of the German miners will respond to the call to arms by their country.

The issue of the call of Germany for her subjects in foreign lands to return and join the reserves is directly because of the Moroccan trouble which has concentrated the eyes of the world powers for some time and which has been growing more and more critical each day, until a crisis is feared momentarily.

HEIGHT OF BUILDINGS IS UNDER DISCUSSION

BUILDING INSPECTOR SEES NO SPECIAL REASON FOR
TABOOING SKY SCRAPPERS IN THIS CITY—MAY
BE LIMITED TO SIX STOREYS.

Intimation that the height of buildings in the city of Edmonton may be limited coupled with the intimation that six stories be made the limit, has precipitated considerable interest and discussion during the past few days. The city commissioners have a recommendation before the city council that a limit be placed upon the height of buildings to be erected in the future. When asked if there is any objection to the height of buildings from the structural standpoint, Building Inspector Brabie, replied in the negative. So long as the foundations are adequate and the structure is properly erected there is no danger in tall buildings, added good subject for foundations and the earth formation cannot be used as

HUMAN BRUTES GIVEN DESERTS

TEN YEARS PENAL SERVITUDE FOR
BEATING A CHILD WITH
A POKE

(Western Associated Press)
Montreal, July 27.—Louis Desnoy and his wife were today sentenced by Judge Choquette to ten years penal servitude each for having brutally beaten Blanche Hancin, the nine year old daughter of the woman by a former husband. Evidence shows that the child had been held up by the hair by the step father while her mother held her head and blue with a poker, part of her flesh was torn off and for four weeks she lay at the point of death in the hospital.

MOROCCAN QUESTION CAUSE OF ARMAMENT

GERMANS DECLARATION THAT THEY WILL BROOK NO INTERFERENCE ON PART OF ENGLAND MAY LEAD TO A DECLARATION OF WAR AND PROBLEM MAY BE SETTLED ON FIELD OF BATTLE.

(Special to the Capital.)
London, July 27.—The stopping of leave of absence on board all the vessels attached to the home fleet and instructions to the commanders of the various squadrons to coal immediately, coupled with the announcement that the German government has sent out a universal call to her people to return to the fatherland and the reserves, is taken here as an indication that Germany and England are about to clash over the Moroccan question.

The German press has issued a blunt warning of "Hands off" and the advisers of the Kaiser appear to be taking their advice seriously to heart. In language plain and very unmistakable the Germans have declared that the issue is one between France and Germany only and that England's attitude is absolutely unwarranted and that no interference will be tolerated.

Home Fleet Ready For Sea.
Portsmouth, July 27.—All is bustle and confusion here, where the home fleet is now anchored. All day colliers have been scurrying between the monster battleships and within a few hours all were coaled and ready for sea at a moment's notice. The government has prepared the fleet for quick action in the event of developments in the Anglo-German crisis in Morocco.

Amalgamation Meeting To Be Held This Evening

SOME DISCONTENT FROM STRATHCONA DUE TO FACT THAT STYLE OF GOVERNMENT HAS NOT BEEN DISCUSSED—OBJECT TO EDMONTON CHARTER.

Tonight at 8 o'clock a meeting is called of the amalgamation committee at the city hall, Edmonton, for the purpose of perfecting the amalgamation agreement upon which considerable labor has already been expended, and which is now running into shape in a number of particulars. The agreement, this evening, and possibly shortly after, will be the return of the draft prepared by the city solicitors of two cities. This agreement will be some over thoroughly and finally, as far as its provisions go, and then when it is decided upon, it will be again submitted to voters for a final draft.

In the amalgamation agreement there is no provision for form of government. Due to this fact there is heard some discontent among the river. It is freely spoken in strathcona that the city unequivocally objects to Edmonton's charter. And it is likewise the intimation of many strathconians that they venture to predict that the Edmonton form of government is the chief, if not the only stumbling block

in the path of amalgamation. The position taken by some of the members of the amalgamation committee is that it is not within the province of the committee to discuss form of government, that such a matter to be decided by the city council of the Greater Edmonton. Such members say that they would recommend that one of the initial actions of the new council would be to provide for the form of government.

But there is where the sticker comes in. Strathconians wish some provision made, and the character of government to be determined, before amalgamation because of the fact that strathcona at this time has an equal voice in the matter and after amalgamation it will be lost to the minority.

Aside from any question of government that might be brought up at the meeting of the general committee this evening some matters as to the routine of street cars will be discussed. It is expected that a big stride toward the common desired end will be achieved at the session this evening.

Premier Laurier Tables Report of Conference

DECLARES THAT FATE OF RECIPROCITY BILL WILL BE KNOWN BEFORE SUPPLY IS VOTED—MEMBER CHARGES VIOLATION OF P.O. ACT.

Ottawa, July 27.—When the house this morning Sir Wilfrid Laurier tabled the full report of the proceedings of the imperial conference. In doing so he explained that the report reached his excellency Earl Grey on the very day Mr. F. D. M. Monk made his motion calling up on the government to bring down a detailed account of the proceedings.

The report is at present, however, a disappointment to the house because it is not accompanied by the report of the proceedings at the conference between the British admiralty and representatives of Canada and Australia on the subject of the status dominion navies. This is the all-important question which the leaders of both sides as well as Mr. Monk the head of the nationalist, King of the opposition, say they are anxious to discuss.

Sir Wilfrid said that frankly in his opinion the resolution agreed to at the imperial conference should be taken immediately by the defence conference did not imply that the resolutions of the defence committee should not be tabled at the same time as the report of the imperial conference.

Mr. J. E. Armstrong charged that just before the last general elections

Italy's Report on the State of Public Health

SAID TO BE VERY MISLEADING—EXISTENCE OF CHOLERA IS NOT MENTIONED AND FOREIGNERS ARE VERY WRATHY

(Globe Press Service)
Rome, July 27.—The Italian government seems to be again following the mistaken policy which last year produced such bad effects on public opinion abroad. Two official statements have recently been made, one by the Marquis di San Giuliano, minister for foreign affairs, and the other by Premier Giolitti, declaring that the condition of public health in Italy was excellent, and calling upon the nations of the world to have confidence in the health of Italy. It is a good deal better than is usual at this season of the year, is true enough. The rate of mortality is lower, and the sanitary conditions of nearly all the large towns are much improved. But the statements ignore, what is of chief interest to other countries, the existence of cholera. Cholera is not more prevalent this year, probably, than it has been at any time during the last twenty years;

but there have been cases at Palermo, Naples, Caserta (apparently also at Salerno) in all about 250, of which one-fifth have been fatal, and in consequence of these cases quarantine has been proclaimed against Naples and the southern part of Italy. No official statement has been made as to the extent of cholera, so that it is impossible to say how many cases there have been, or there are today. The cases are scattered and nowhere serious, except, perhaps, at Palermo. There is probably far less risk of cholera in Italy today than there has been for some time past. There is always a very heavy rate of mortality from indigenous cholera, of the non-infectious kind, at this season of the year, especially in such seaports as Naples. But even this is less than it used to be, and as to Asiatic cholera, the official methods of prevention and isolation are now so excellent and so thoroughly carried out that it is hardly possible for any serious outbreak to occur.

WARM CAMPAIGN IN MISSISSIPPI

STATE WIDE DEMOCRATIC PRIMARY WILL BE HELD TUESDAY—ONE GUBERNATIONAL CANDIDATE

(Globe Press Service)
Jackson, Miss., July 27.—One of the most spirited political campaigns that Mississippi has seen in years entered upon its final stages today. Next Tuesday a state-wide democratic primary will be held for the endorsement of a candidate for United States senator and the nomination of candidates for governor and other state officers to be chosen at the next election. In this state the democratic nomination is equivalent to election. Public interest centres almost wholly in the contest for the senatorship. Senator Le Roy Percy, whose term will expire in 1913, is a candidate for re-election. His principal opponent in the fight for the toga is ex-Governor James K. Vardaman, one of the most aggressive and picturesque politicians that Mississippi has turned out in many years. C. H. Alexander is the third candidate in the senatorial race. Alexander has developed a considerable following, but most political onlookers are of the opinion that the real fight will be between Vardaman and Percy, with a close third and probably that a second primary will be necessary to a choice. Earl Brower, a prominent lawyer of Clarksdale will be nominated for governor without opposition.

DIFFICULT TASK FOR ONE OFFICER

EXPERT SHOWS ONE MAN COULD NOT CONTROL FRENCH ARMY IN WAR TIME

(Globe Press Service)
Paris, July 27.—General Gouran, the outgoing minister of war, explains in a letter to the "Temps," his reasons for considering that the task of commanding the French armies in time of war is beyond the powers of a single man. It will be remembered that he is the General who has expressed his views on the subject in the senate some days ago was the nominal cause of the defeat of the French in the chamber of deputies. In the first place, he denies that he is a detractor of Napoleon, but he maintains that it is impossible that Napoleon had undertaken a task which was beyond the strength of any man, in General Gouran's opinion similar disaster would overtake any commander who attempted to assume the duties of the "chaud commandement" single-handed. He believes that "a wise distribution of functions, combined with co-operation of effort, is indispensable."

The "diplomatic, naval and military action" cannot be vested in the hands of a single man. The conduct of the operations in the field and the command of the fleet must be left to the responsible generals and admirals, while diplomatic action can be exercised only by the home government, whose duty it is to co-ordinate the various forces at the country's disposal. General Gouran adds that the whole question is whether and to what extent the government is to be assisted in its decisions by the expert advice of the army council or of a committee of national defense. He considers that this question urgently calls for serious one way or another.

Fuller Melish has been re-engaged for the role of the priest next season in support of Miss Gertrude Eklund in "Rebellion," Joseph Mehl Patterson's latest play.

Charles Dickson, author of "Three Twins," "Bright Eyes," and other successes, has practically completed the selection of his cast of principals for his new play, "An Average Chap."

A. H. Woods will produce "The Broken Boomer," a new play by Edward Peple, during the engagement of Buskin and William Farman in "The Littlest Rebel," at the Chicago Opera House in October.

A series of motion pictures of Mary Anderson in her home near Exeter has been obtained by E. M. Newman in connection with other material for his travelogue of the coming season.

Rose Stahl, who is resting in Ireland, will return August 18, and direct affairs of the theatre will be handled for the New York production of the Klein play, "Maggie Pepper," which is to open the Harris Theatre the last week in August.

The Chicago opera house, one of the most important playhouses in Chicago for many years, is to be torn down. The Marshall Field store will build a \$1,000,000 store and office building on the site.

ARCHISHOP'S MESSAGE ABROAD

(Union Press Service)
Milwaukee, Wis., July 27.—Archbishop Messner, head of the Roman Catholic archdiocese of Milwaukee, left with a party of friends today for Montreal, whence he is to sail next Saturday for Europe. The archbishop will go direct to Switzerland, where he will spend the remainder of the summer at his old home in the Tyrol.

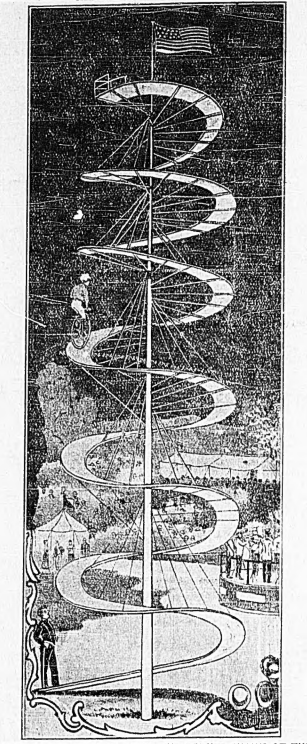

TO BUILD STORAGE HOUSE

(Union Press Service)
Pittsburg, Pa., July 27.—The Pennsylvania railroad is planning to build in this city the largest cold storage house in the world. It will cover at least two entire city blocks and will cost more than \$2,000,000. Besides furnishing cold storage facilities, there will be storerooms, restaurants and offices for the use of the railroad. It is estimated that five hundred commission merchants.

LOVA WANTS "AD." MEN'S CONVENTION

Des Moines, Ia., July 27.—A large delegation representing the advertising clubs of Iowa left by special train today for Boston to attend the national convention of advertising clubs to be held in that city next week. The delegation will endeavor to secure next year's convention of the association for Des Moines or some other Iowa city.

Jan Macdoner, the noted English actor, is now in New York, ready to go to work for Hebbel & Co., who will place him either in "Therapy" or "The Garden of Allah." Mr. Macdoner has never appeared in America, but enjoys a fine reputation in England.

NEGRO TO DIE ON GALLOWS

Spends His Few Remaining Hours in Reading Bible and Smoking Cigarettes.

(Union Press Service)
Oklahoma City, Okla., July 27.—Spending his few remaining hours of life in reading the Bible and smoking cigarettes, John Henry Prather, a young negro, is awaiting the call to the gallows tomorrow morning. The hour approach of the day of execution and the knowledge that there is little or no probability of a respite have caused no noticeable change in the demeanor of the condemned man.

Prather and four other young negroes were convicted of the murder of N. H. Archie in this city last April. Prather has never denied firing the fatal shot, saying he committed the murder in a fit of rage, and his companions had robbed Archie so he could be "able to say he had murdered a white man." The execution of the other four negroes has been delayed by the appeal of their case to the high court.

FOR COMMANDER-IN-CHIEF, G. A. R.

(Union Press Service)
Washington, D.C., July 27.—Colonel John McElroy, editor and publisher of the National Tribune of this city, confidently expects to be elected to the office of commander-in-chief of the Grand Army of the Republic at the national encampment in Rochester next month. Colonel McElroy was a candidate for the honor at the national encampment at Atlantic City last year, but was defeated by John E. Gilman, of Boston.

River of Whiskey Flowed in Street

FIRE AT DALMORE DISTILLERY, SCOTLAND, ENDS IN
THOUSANDS OF BARRELS OF LIQUOR
BEING DESTROYED

(Globe Press Service)
Glasgow, July 28.—The scene at the great fire broke out at Dalmore distillery, Ayrshire, late on a Saturday night, was a terrible one. A veritable river of whiskey ran into Groaty Firth. Night had fallen on the sleepy hamlet, and the excitement, rushed down the ill-paved streets. They saw the famous distillery—which had a history of 70 years—abandoned. This was an hour before midnight. A rush was made to liberate the famous polled herd of cattle, which were driven out into the square, enveloped by the animals, which were frantic with fear and maddened by smoke, were driven out into the square, enveloped in clouds of smoke. Half-naked men rushed here and there, and women stood huddled in groups.

BURIAL RITES FOR SUICIDES

COMMITTEE DECIDES THAT SPECIAL SERVICE SHOULD BE USED IN EXTREME CASES

(International News Service)
London, July 28.—The Bishop of St. Albans has presided in the upper house of convocation of Canterbury, the report of a committee dealing with the matter of allowing special burial rites to the bodies of suicides. The Bishop of Oxford considered that in the case of a man "having lived a notoriously evil life" there should be a refusal to allow the body to enter the church, but that except in such a case the body should be admitted, but an altered form of service used. A resolution was adopted, authorizing a clergyman to bring any case before his bishop where he thought burial would be done by using the full burial service, and it was further agreed to draw up a form of service to be used in such cases.

TRAILED CROOK BY A CIGARETTE

DETECTIVE FOLLOWS AROMA OF "WEEPO" AND EVENTUALLY CATCHES HIS MAN

(International News Service)
London, July 28.—Something in the night might have been taken from Sherlock Holmes' fiction has amused the Kingston magistrates, who however, grew stern enough to sentence Tom Taylor, their prisoner, to three months' hard labor. He had stolen from a woman a set of Mammy money, a quantity of cigarettes and other articles, belonging to Mr. John Lang, a well-known publisher. Detective Grogan, who arrested Taylor on the Queen's river side promenade in the dead of night, said that while he was walking about by the river with Detective Fox he detected the aroma of a cigarette. He recognized the scent as that of a woman's perfume. He followed the scent, and caught up the woman. In reply to the charge, Taylor, on whom nearly all the stolen articles were found, said: "It's quite right, I broke in about half past two this morning."

Plan Destruction of Roman Aqueduct

COUNCIL OF SEVILLE HAS DECIDED THAT WALLS
ADMIT POLLUTION OF WATER ENDANGERING
PUBLIC HEALTH—DISTINCT LOSS TO ART

(Globe Press Service)
Seville, July 28.—Every one who has visited Seville will remember the Roman aqueduct, which runs from what was the gate of Carmona in the Roman walls of the city (pulled down during the second half of the last century) to Alcala de Guadaira, a picturesque hill-town with a huge Arabic castle which every artist who comes this way goes to see and to sketch. Now, alas, if the "Alcade" and the town council of Seville have their way, we shall soon have looked our last on the Canos de Carmona, as the aqueduct is called; the pure unfailing stream which has run for some 2,000 years through channels made before Christ was born, will henceforth be conveyed through a cast-iron pipe into the fountains which furnish drinking-water, and a row of villas and warehouses will replace the beautiful arcades designed in the time of Julius Caesar and renovated under the rule of the Almohades more than seven centuries ago. Those interested in its destruction assert that the walls are dirty, that the water, owing to fractures in the channel, is dangerous to health, and that the structure restricts the development of the suburb which it traverses. The aqueduct, however, is still in working order and in daily use by half the population of Seville. There is nothing approaching to ruin about it, and its demolition would be an irreparable loss, not only to Seville but to European art. The water is not the least unsanitary, it comes from the same sources as those of the water company of Seville, whose supply is renewed for its purity.

RURAL POET'S LOST IN PARIS

HAD NEVER BEEN AWAY FROM HIS NATIVE VILLAGE BEFORE—STILL MISSING

(International News Service)
Paris, July 28.—A poet is lost in Paris. He is a Provencal, named Hieu, who came up from Provence ten days ago to recite a poem before the statue of Mistrail. He had never been out of his village before. The Parisian who was told off to look after Hieu, lost sight of him for a few minutes a few days ago and he promptly disappeared. An amusing explanation of his disappearance is given by his friend, M. Jules Bois, the well-known playwright and poet. "Hieu is a dreamer," he said, "as simple as a child. He is here at work just now on a beautiful play in Provencal, and I expect he found the house of a Paris hotel too much for him, and he simply walked away to the country. I do not suppose he knows where he is at all, but I am sure we shall find him soon in a little country inn somewhere with croppers on the wall. Meanwhile no trace of him has been found."

RESUME HEARING OF STEEL TRUST

NEW YORK LEGISLATIVE INVESTIGATING COMMITTEE RESUMES ITS TASK TODAY—MANY WITNESSES

(Union Press Service)
New York, July 27.—The so-called steel investigating committee of the house, of which Representative Stanley of Kentucky is chairman, came to New York today to resume its hearings within a convenient hearing distance of the offices of the giant corporation and where some of the big men of Wall Street and others who are supposed to know the inside history of the formation and operations of the United States Steel corporation can be summoned before the committee without loss of time. It is understood the committee will first resume investigation of the absorption of the Tennessee Coal and Iron company by the United States Steel corporation. So far nothing has transpired to verify the rumors that J. P. Morgan, George W. Perkins, ex-President Roosevelt and other big men would be summoned to testify, but the belief prevails that the committee will not hesitate to take such action should it seem necessary in order to get at the foundation facts in regard to the Tennessee merger.

FOODS CAUSE OF DENTAL DISEASE

MORE THAN 70 PER CENT OF CHILDREN IN SHEPHERD, ENGLAND REQUIRE DENTIST

(International News Service)
London, July 28.—Dr. J. Sim. Wallace, speaking at the Imperial Health association, London, under the auspices of the Women's Imperial Health association, said that the cause of dental diseases was the soft and sticky nature of the foods commonly consumed by children. "When certain foods of a starchy and sticky nature lodge in the teeth," he added, "they ferment and give rise to acids which destroy the enamel. Unless such foods are eaten with a corresponding amount of food of fibrous or firm and cleansing nature, decay is sure to result. Chronic ill-health and concomitant enervation in children prevent the perfect development of the jaws and this is largely the result of a system of feeding, which has resulted in the feeding on children of all ages foods which leave the mouth in a state of chronic fermentation. Mr. H. P. Williams stated that out of 75,000 school children in Sheffield, 60,000—more than 70 per cent—were in urgent need of dental treatment."

Villanova College has conferred the degree of doctor of music on Victor Herbert.
